---

Highly motivated individual with proven experience in developing, testing, debugging and implementing web solutions with a keen eye for detail. Skilled in object-oriented programming, the latest web technologies and modern development methods. Excellent problem solving and communication skills with a strong passion for learning and improving both technical and soft skills.

---

## PROFESSIONAL EXPERIENCE

**Novita**                                                                                                    **Aug 2022 - Dec 2022**
**Student Placement - Full Stack Developer**
Lead a small team of myself and one other person to ideate, develop and meet with senior staff to present and determine the direction of the project going forward, resulting in a proof of concept full stack application being made that will benefit the lives of those who live with Complex Communcation Needs (CCN).

Accomplishments:
- Developed and deployed a full-stack application that improved the lives of Novita's clients with disabilities and Novita staff.
- Took initiative to research and implement new technologies, even when unfamiliar.

---

## HIGHLIGHTED PROJECTS
All projects are available in my portfolio

**Portfolio**
React app that I made for my friend to showcase his best projects, in a simple and easy to use way

**Netflux**
Movie suggestor app built in react that makes of the small movie database API from RapidAPI to take in a genre, then recommend to the user movies they should watch.

---
